

WordPress website creation and website hosting

What we do for you

From the creation of your website, to its hosting, we put our expertise at your service. Our goal is simple: help your business move forward!

Website creation

Because it is the most used platform in the world and because it allows the client to make certain modifications by themselves, we create our websites in Wordpress. This is the best way to get the most out of every dollar spent. Contact us for an estimate of your needs and the associated cost. Our sites cost less than \$ 5,000.

2 hosting plans are offered

Our specialized hosting management service for WordPress sites will allow you to concentrate on your business activities while being assured that your domain name and your website will be updated, functional and optimal.

Plan A: \$25/month

- Web hosting management (including the parameters updates to ensure the proper functioning of the site)
- Domaine name management
- Renewals management

Plan B: \$50/Month

- Plan A
- Management of the WordPress website (updates and maintenance) – parameters and applications
- 1 hour of service to make modifications or add material on your website (possibility to purchase banks of additional hours)
